

CL-65 Recurrent Training Course

*The CL-65 type rating covers the CRJ-100, 200, 700 and 900 model aircraft, as well as the CL-850 (CRJ-200), 870 (CRJ-700) and 890 (CRJ-900) aircraft.

CL-65 Recurrent Training Program, Part 61

The CL-65 Recurrent Training Program includes:

- WorldWide Student Manual containing:
 - Training Procedures
 - Training Maneuvers
 - Training Profiles
 - WorldWide CRJ Checklists

- 6 hours instructor-led groundschool
- 4 hours Flight Simulation Training Device (FSTD) or Integrated Procedures Trainer (IPT) (4 hrs. Pilot Flying (PF) and 4 hrs. Pilot Monitoring (PM)).
- 8 hours Full Flight Simulator (FFS), this time includes your checkride. (4 hrs. PF and 4 hrs. PM).

Our courses are designed around Part 121 air carrier training, the latest FAA approved training scenarios and safety. Our instructors are current or were previous line check airmen, line pilots, simulator instructors and groundschool instructors for Part 121 air carriers. They bring extensive knowledge and experience to the training environment which will assist you in the learning environment. Our goal is to have crewmembers not only successfully pass their checkride, but also instill confidence, safety and the expertise to take with you in your future endeavors.

Event	Total Hours
Groundschool	6.0 Hours
FTD/IPT	4.0 Hours
Pre and Post Lesson Briefings	4.0 Hours
IPT or FSTD	4.0 Hours
Full Flight Simulator	4.0 Hours
