

CL-65 VMC Restriction Removal

*The CL-65 type rating covers the CRJ-100, 200, 700 and 900 model aircraft, as well as the CL-850 (CRJ-200), 870 (CRJ-700) and 890 (CRJ-900) aircraft.

CL-65 VMC Restriction Removal Program, Part 61

The CL-65 VMC Restriction Removal Program includes:

- 1 hour Pre-lesson briefing
- 1 hour Post lesson briefing
- 2 hours Full Flight Simulator (FFS), checkride. (1 hr. PF and 1 hr. PM).

Our courses are designed around Part 121 air carrier training, the latest FAA approved training scenarios and safety. Our instructors are current or were previous line check airmen, line pilots, simulator instructors and groundschool instructors for Part 121 air carriers. They bring extensive knowledge and experience to the training environment which will assist you in the learning environment. Our goal is to have crewmembers not only successfully pass their checkride, but also instill confidence, safety and the expertise to take with you in your future endeavors.

Event	Total Hours
VMC Restriction Removal Checkride	2.0 Hours
Total Hours	2.0 Hours

CL-65 VMC Restriction Removal Program is based on a per crew basis (two pilots). Call or email us for additional information. We look forward to working with you. **Crewmember must be current in the CL-65 for the VMC restriction removal.**
